

Universal Air Academy
FAA Medical Certificate

IMPORTANT

Please, obtain your FAA Medical Certificate, as soon as possible, to ensure that your entire training process be efficient.

It may prevent you (or delay) from obtaining a FAA Medical Certificate if you have or think you have any of the following conditions: Heart Disease/Heart Attack; High Blood Pressure; Tuberculosis or other Lung Disease; Allergies; Asthma; Diabetes; Cancer; Hearing Trouble; Fainting spells; Convulsions; Epilepsy; Ulcers; Psychiatric Treatment; Amputation of any part of the body; Frequent Headaches; Dizziness; Colorblindness; You presently under care of a physician.

How to Obtain FAA Medical Certificate:

- 1.) Call and make an appointment with an FAA certified Medical Examiner.

Dr. John Phillipp (Senior Aviation Medical Examiner)

Call: 1-909-592-9647 (24 hours)

Exams done weekdays, Saturdays, Sundays and Holidays

- 2.) On the phone, say the following, please:

“I am going to start flight training at Universal Air Academy. So, I’d like to make an appointment for a Third Class Medical and a Student Pilot Certificate.”

- 3.) Please, go to the Examiner’s office on the day of the appointment.

Date: _____ Time: _____

Address: 130 West Route 66, Suite 220, Glendora, CA 91740

Note: The entire process is usually about 1 hour.
